Going on it's 4th year, this event keeps bringing back the smiles! For 2010 we keep with the winning formula of private event trail + best of the public trail + two tracks that are more like single track with a built-in passing lane + great food. The Adventure Routes will keep you on your toes and provide an overload of excellent scenery. Route sheets will be in use for this ride in addition to some ground markings for the tricky corners. GPS available for all courses as well. Note the event is now staging from the Sturgeon River Campground.
